Metallwerk Plansee A.G., Reutte

1. Negotiations concerning ownership of this plant have now been concluded. The ownership is to remain exclusively with the Austrians. In return for this concession the French have taken the following assets:
 - a) machinery from the plant valued at 100,000 Swiss francs, and
 - b) 70% of all the plant's licences.
2. The machinery was shipped to the Société d'Electrochimie et des Aciéries Electriques d'Ugine, 10 rue du Général Foy, Paris 8.
3. A French official supervises the new licences used by the plant, ostensibly to see that no war material is manufactured. By this means, he obtains knowledge of the new processes used by the plant.

This document contains information affecting the national defense of the United States within the meaning of the Espionage Act, 50 U.S.C. 31 and 32, as amended. Its transmission or the revelation of its contents in any manner to an unauthorized person is prohibited by law.

This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 10 October 1973 from the Director of Central Intelligence to the Archivist of the United States.
